

WANTED ! ESTIMATOR READY TO STEP OUTSIDE THE SQUARE.

Econstruct are WA's Market Leaders in Quality Ecological Construction .

The Team at Econstruct are passionate about the creation of 'one of a kind' architecturally designed, solar passive homes. Our approach encompasses the philosophy of 'Quality over Quantity'. All aspects of the construction process at Econstruct are conducted with a focus on minimal environmental impact and maximum resource efficiency. Due to an influx of like minded clients, we require the services of an experienced Residential Estimator.

The ideal candidate will possess:

- Over 5 years experience in Estimating.
- Outstanding time management skills.
- An organised and systematic approach to reaching targets.
- Some exposure to 'one of a kind' projects will be an advantage.
- A degree in Quantity Surveying, a Certificate IV in Building and Construction - Estimating (or similar) will be highly regarded.

At Econstruct we believe our Team are our greatest asset. We actively support our Team Members in their career development through training and the creation of new opportunities within the business. Amongst other benefits, the successful applicant can expect:

- A friendly team based work environment.
- A highly competitive salary package.
- Free parking.
- Flexible work hours and conditions.
- Rewards / bonuses for a job well done.

If you want to part of our progressive team please send your resume and a covering letter to:
